

# Client / Entertainment, Band or Disc Jockey Agreement

## The Barn at Echo Ridge

To be respectful of our neighbors adjacent to The Barn At Echo Ridge, we ask that the following guidelines be followed at all times.

- All music must end with the last dance by 9:30 PM.
- The volume levels and bass levels need to be measured at the sound check. The Venue Manager will assist with the sound check to make sure the decibel levels are understood.
- The decibel level is not to exceed 55 decibels at the northeastern fence, near the hanging benches.
- All outdoor amplifiers and speakers must be placed, facing towards the west or the home and cannot be facing the ceremony lawn with the only exception being during the ceremony.
- Bass levels must follow the same levels as listed above. The Venue Manager will assess the volume of the bass at varying areas around the property and will judge whether or not it needs to be turned down.
- Once the event begins, sound levels will be periodically measured and recorded by the Venue owner.
- If you are asked to turn down any aspect of your sound, bass, vocals, speaker position, etc., it will be done without question or dispute. IF you're asked a second time, know that we will be involving the Bridal Party, the ones that hired you. If you receive a third warning, you will be jeopardizing the Bridal Party's security deposit and the event being shut down for non-compliance.
- It is up to the Event Coordinator and the band or DJ to determine the power needs ahead of the time.
- Consumption of alcohol or cannabis by entertainment, band, or DJ is strictly prohibited during the duration of the rental agreement, with no exceptions!
